

Want to join our Manufacturing Team?

Become part of the aXpel group.

We have been successfully processing fibre-reinforced plastics into technical moldings (casings, housings, vehicle parts, insulators, etc.) for various branches of industry. Become a part of the aXpel group and grow with us.

We are in an exciting growth phase and are looking for you as of now
as a

Composite Manufacturing Technician

Let's work together

You will have the opportunity to work on some of the most significant and challenging projects in the composites industry. To this end, YOU will lend a hand with the following tasks:

- Following a product or project through from creation to delivery whilst focusing on customer needs
- Applying innovative approaches to evaluate and develop technical solutions to solve engineering challenges,
- Leading by example and implement best practice in all aspects of manufacturing
- Analysing and reporting on manufacturing processes

What makes you tick

Proactive, communicative, passionate, convincing and determined; these and the following qualities are part of your DNA:

- You have experience in composite manufacturing processes and production
- You are customer focused
- You understand how manufacturing data can be optimised and exploited
- Hungarian or English is your mother language

What we offer you

- A varied and responsible job in an exciting working environment
- A careful and comprehensive induction
- Digitised work tools
- A lot of personal responsibility and commitment

INTERESTED?

Then we look forward to receiving your complete and meaningful application documents at jobs@axpel.com.
